## PROJECTS

---

### Bulls & Cows

A C++ Terminal Game that has the user try to guess an isogram. Utilized within Unreal Engine, and using Unreal C++ syntax.

### Student Roster Program

A smaller project written using C++, which uses functions to manipulate data, and creates objects while parsing through the information.

### Portfolio Website

A website used to showcase these projects and future projects written from scratch. HTML, CSS, and JavaScript were used to create this website.
